DETAILED ACTION

1. Claims 1 to 20 are presented for examination.

Response to Amendment

2. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Allowable Subject Matter

3. Claims 1 to 20 are allowed.
4. The following is an examiner's statement of reasons for allowance: upon reconsideration, this application is allowed for the reasons argued by applicant, which states that an LLR probability value of Haller is not a data throughput value. The prior art made of record teaches a method and an apparatus for iterative decoding using a LLR probability value; however, the prior art made of record, taken alone or in combination fails to teach the novel limitations recited in the claims.

Claims 1 recites "a processor configured to determine an efficient number of iterations for an iterative decoder based on the data throughput value;" claim 7 recites "determining a number of iterations to be performed by an iterative decoder based on the data throughput value;" and claim 13 recites "a processor configured to determine a data throughput value and determine the number of iterations to be performed by the iterative decoder based on the data throughput value and further configured to control

the number of iterations performed by the iterative decoder based on the determination." Therefore the primary reason for allowance of the claims is the novel data throughput value used in the iterative decoding process as recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

5. Applicant's arguments, see page 6 par. 1, filed 11-17-2006, with respect to claims 1 to 20 have been fully considered and are persuasive. The rejection of claims 1 to 20 has been withdrawn.
